**DETAILED ACTION**

***Information Disclosure Statement***

1. The Information Disclosure Statements filed 8-1-01, 8-27-01, 12-12-01, 2-14-02, 4-24-02 and 6-24-02, have been considered. The crossed-off items have not been considered because they were repeated (McKenzie and Shibata), were not included (PCT Search Reports, JP06067019, JP5-263255, Kiermasz) or were US Applications.

***Claim Rejections - 35 USC § 112***

2. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

3. Claims 22-31 are rejected under 35 U.S.C. 112, first paragraph, as containing subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The claims recite an annealing temperature "of at least 550°C". The specification on page 6, teaches "greater than 400°C", "800-1050°C", "800-900°C" and "most preferably 850°C". The specification does not provide support for "at least 550°C".

***Allowable Subject Matter***

4. The subject matter of claims 22-31, specifically annealing the antireflective layer at a temperature of at least 550°C, is not taught by the prior art of record. This temperature recitation is considered new matter by the examiner. If the temperature range is modified, this indication of allowable subject matter may be removed.

***Conclusion***

5. Any inquiry concerning this communication should be directed to Examiner K. Duda at (703) 308-2292. Official after final FAX communications should be sent to (703) 872-9311, all other official FAX communications should be sent to (703) 872-9310.
